
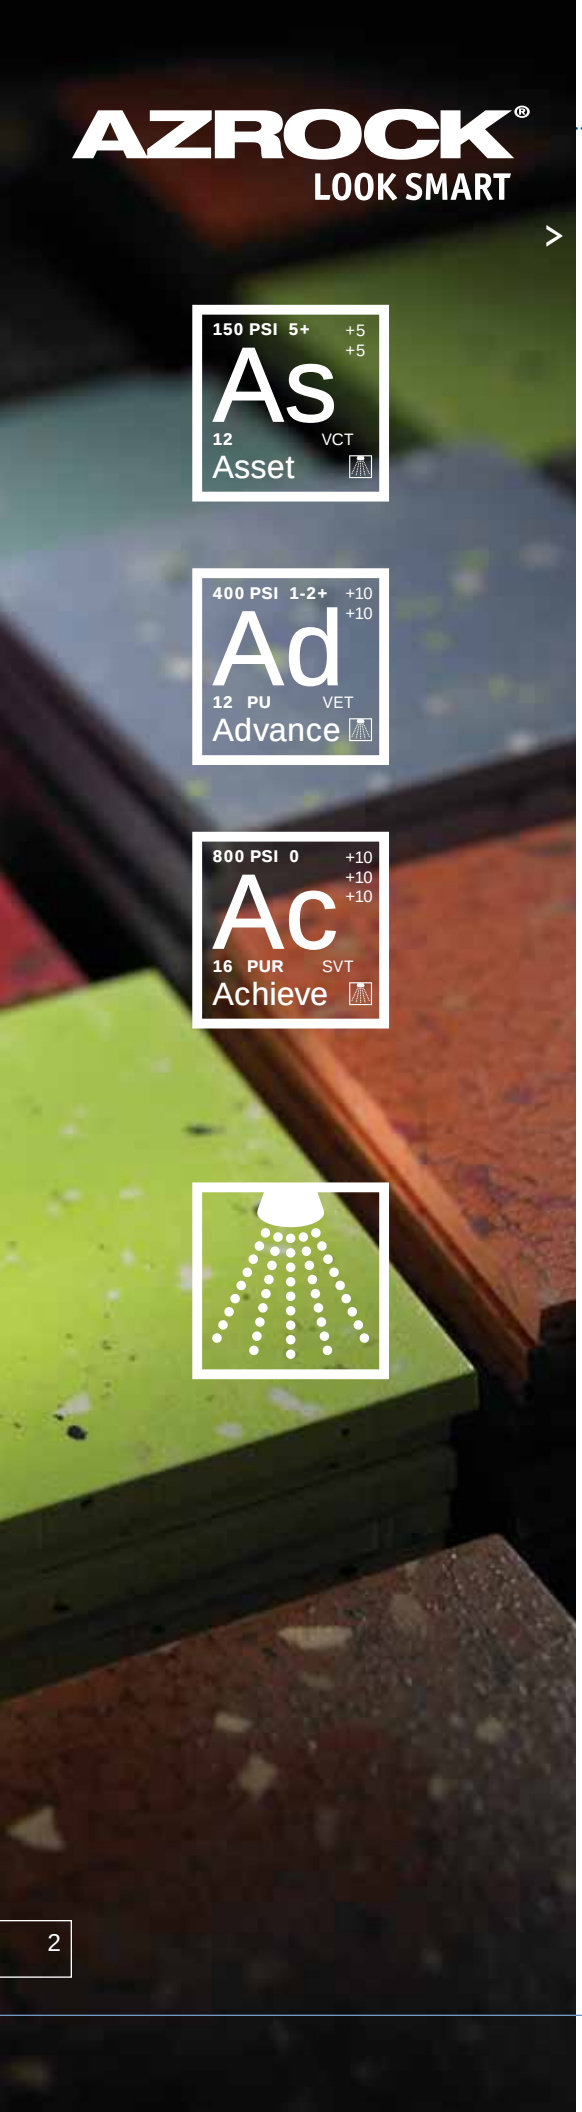
AZROCK®
LOOK SMART

AZROCK®
LOOK SMART



> INTRODUCING THE NEXT GENERATION OF FLOORING.

(USING IT CAN MAKE YOU LOOK LIKE A GENIUS.)

What if you could save your organization $5.9 million over the next six years in maintenance costs? That would look pretty good on your resume, wouldn't it? Well, you can with Achieve, one of our new vinyl tile lines that dry buffs to a high gloss without wax or polish.

We've also re-engineered our basic VCT and our enhanced vinyl tile lines to make them an even smarter choice. Now they install in a third of the time, you can walk on them immediately, they require less maintenance and they come with the longest warranties in the industry.

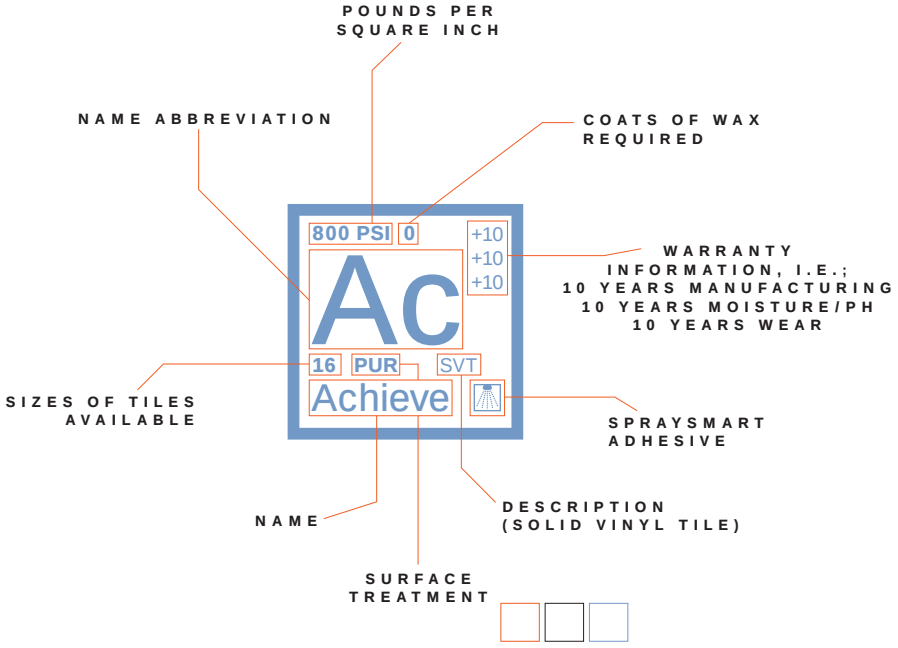
We've developed a new adhesive that improves the installation process. It's called SpraySmart, and cuts installation time by up to 70 percent and contains no VOCs. It has better moisture resistance than ordinary adhesives, which allows us to double our warranties. When you cut cost, installation time and environmental impact, you'll look smart and so will your floor.

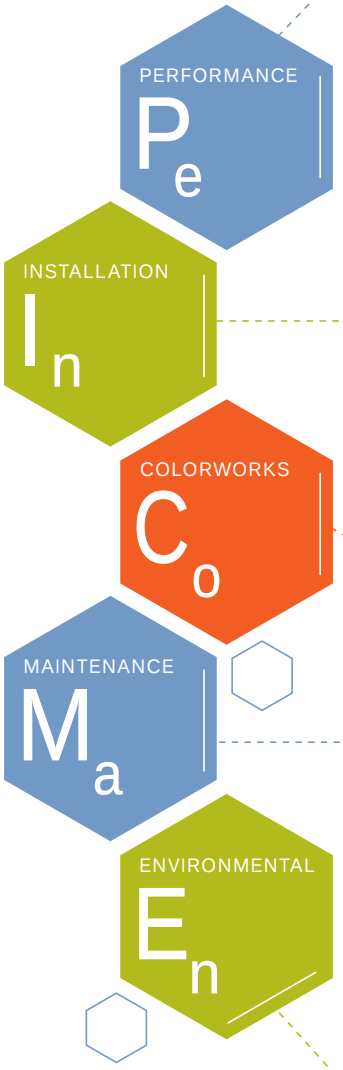
So that's the story.

A new tile system,

a new adhesive system,

a smarter approach to flooring.





With SpraySmart adhesive, your tile is ready for business a few minutes after it is installed and you'll be walking around on a new floor with triple warranty protection. The slip-resistant surface helps reduce slip/fall liability claims. And it's also moisture resistant up to 10 lbs/12 PH, not to mention the high PSI ratings.

Nothing is smarter than installing Azrock tile with SpraySmart adhesive. It takes less time (up to 70 percent less), fewer tools and less adhesive. The little adhesive that is used is odorless and contains no VOCs. And when it's all said and done, your space will be ready for immediate occupancy.

The entire Azrock line is part of the ColorWorks® story. Designers can easily mix product lines to create unique color stories. And with unique sizes, shapes, textures and edge options, looking good will also mean looking smart.

Our Achieve tile can eliminate polish or strippers. The lower maintenance requirements mean a decrease in labor costs and a lower impact on the environment. Making you look smart.

All products are FloorScore™ certified to ensure the best indoor air quality. Depending on your tile choice, you can earn LEED points. Using less adhesive means making less waste, up to one container for every four used in traditional installation. Lower maintenance costs also mean less waste because you use fewer products to maintain your floors. If that weren't enough, Azrock has put into place the ReUse Reclamation Program for clean flooring waste.

COLORWORKS™

Gold Award Winner of
the 2007 Design Journal
ADEX awards

Make color work to your advantage with our integrated palette of commercial tile products from Azrock by Tarkett. A beautiful choice of colors, textures and compatible products in four dynamic color ranges — natural, cosmopolitan, contemporary and urban. Combine different product lines for the perfect blend of aesthetics and performance. And lead the way with extraordinary designs that are beautiful AND functional.

Natural.
The elevation of well being to an art form.

Cosmopolitan.
Rich expressions built on beautifully celebrated tones.

Contemporary.
The unexpected harmonies that add excitement to every day life.

Urban.
Elegantly combining the raw and the sophisticated.

VINYL COMPOSITION

150 PSI

DOUBLE WARRANTY FOR 5 YEARS

FLOORSCORE CERTIFIED

EARN LEED POINTS

Asset is a vinyl composition tile with 150 PSI. It requires 5+ coats of polish, as well as stripping and refinishing. When Asset is installed using SpraySmart adhesive, you get double warranty protection – a 5-year manufacturing warranty and a 5-year limited moisture/PH warranty. Asset is FloorScore certified and can help you earn LEED points.

STANDARD VCT

- **Cortina® Colors**
- **Cortina® Classics**

Versatility and quality come beautifully together in Azrock's Asset VCT line, the designer-oriented array of contemporary colors, patterns and styles that coordinate and interact in virtually endless ways.

- 85% of VCT raw material is limestone – a clean, non-polluting and benign filler
- 100% of all production overage recycled back into VCT
- Packaged in recyclable cardboard on reusable and biodegradable wooden pallets
- 12" x 12" tiles
- FloorScore certified
- Reclamation program for VCT installation waste to further reduce the environmental impact and earn LEED rating
- Lowest up-front cost
- A minimum of 10% post-consumer recycled content

PREMIUM VCT

- **Granite™**
- **Granite™ SR**
- **Thru-Quartz**
- **Solids & Feature Strips**

Where the look and feel of exceptional quality is a paramount consideration, our Asset Premium VCT lines artfully blend extraordinary visual appeal with tough performance.

- Greater variety increases creative options and opportunities
- Added safety and slip-resistant capabilities are available with SR products
- 12" x 12" tiles
- Made of more than 85% limestone, a clean, non-polluting and benign filler
- 100% of all production overage is recycled back into VCT
- FloorScore certified
- Reclamation program for VCT installation waste to further reduce the environmental impact and earn LEED rating

Advance is a vinyl enhanced tile with 400 PSI. It has a higher upfront cost but lower maintenance costs. In fact, Advance can save your organization thousands of dollars annually.

Advance has a Tritonite PU Finish, a UV/ ceramic coating technology which resists dirt buildup and requires no initial stripping. It requires 2 coats of polish and follow-up spray buffing with the occasional stripping and refinishing. Advance can save on maintenance costs.

When Advance is installed using SpraySmart adhesive, you get double warranty protection with a 10-year manufacturing warranty and 10-year limited moisture warranty.

Advance is FloorScore certified and can help you earn LEED points.

TRITONITE

VINYL ENHANCED TILE

- **CortinaStone™**
- More binder content than VCT
- More durability and easier maintenance
- Maintenance characteristics make VET ideal for areas that do not receive consistent routine maintenance (boutiques, small specialty retail, offices, etc.)
- 12" x 12" tiles
- FloorScore certified
- Contains a minimum of 25% pre-consumer recycled content

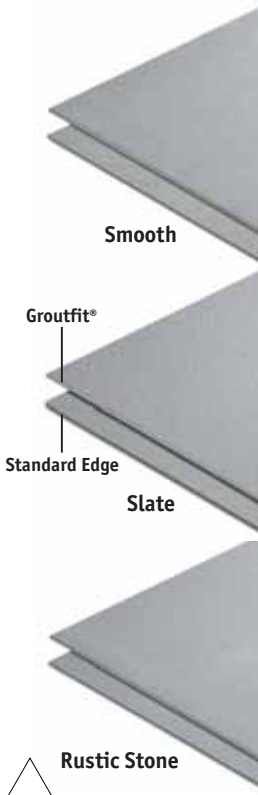
ADDED DIMENSIONS

Platinum Award Winner of the 2008 Design Journal ADEX awards

When you choose from Azrock's Added Dimensions, you're not just choosing homogeneous tile. You're giving yourself the size, color, texture, finish, and edge options that'll make your designs work exactly the way you want.

Start by picking any Achieve pattern: SolidAir, Cortina Grande, Milano or Karim Kolors. Then choose any one or combination of the following options:

- **Tile Size:** 16x16, 12x12 or 4 unique Karim Shapes
- **Texture:** Smooth, Rustic Stone or Slate Texture
- **Grout Treatment:** Standard Edge or exclusive Groutfit® .
  Most conventional vinyl tiles have grout on all four sides which leaves a visible seam, right in the middle of the grout. Groutfit® tiles, with grout on only 2 sides, fit together for a beautiful, realistic tile with seamless grout.



Minimum order for any Added Dimensions textured product is 300 cartons. GroutFit not available on Karim Shapes. Karim Shapes minimum order is one full carton. Visit www.azrock.com for packing data.

Just call 1-800-558-2240 or visit www.azrock.com for more solutions.

Karim Shapes *(Available for all Achieve products)*

FLOORART

Using waterjet technology, our flooring can be intricately and perfectly cut into any two-dimensional shape at almost any size. From schools to hotels to offices to retail space, we will make your floor stand out at prices you can afford.

Your custom design rendered in Azrock flooring in less than 6 weeks.

- Cost quotations are provided within 3 days from the time your preliminary drawings are received.*
- Within 14 days of your non-cancelable order, you will be sent final shop drawings (which will include material requirements by color) for signature approval.
- Once the flooring material has shipped from either our Houston or Florence Plant or your flooring contractor/dealer, we will require no more than 3 weeks to produce the final product, ready for shipment to your job site.

**Cost quotations will include CUTTING ONLY, with freight estimated. Material required to produce the design is in addition to the cut charges. Material requirements will be furnished with the final shop drawings, and the distributor will provide a materials cost quotation separately.*

Basketball Court Kit – KT317

STANDARD COURT DIMENSIONS:
College - 50′ x 94′
High School - 50′ x 84′
Junior High School - 42′ x 74′

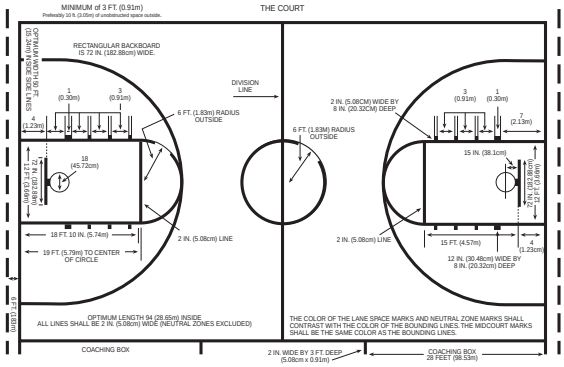
Each kit contains sufficient material for a standard college court including all the necessary Feature Strips and curved segments for straight boundary lines, circular markings and three-point goal markings. (Field product sold separately.) To create high school or junior high courts, just reduce the number of segments to form the standard perimeter dimensions listed above.

AVAILABLE IN BLACK. Custom colors are available on a special quotation basis.

BASKETBALL COURT KITS COME IN 3 CARTONS

- Carton 1 **6′ Circles/Strips** contains:
  - Instructions and court diagram
  - Arc for 6′ Radius Circles (32 pieces)
  - 2″ x 24″ Feature Strips (10 pieces)
- Carton 2 **Feature Strips** contains:
  - Bundle of 10 cartons of 2″ x 24″ Feature Strips, 26 pieces each (260 pieces total)
- Carton 3 **3 Pt. Arc/Free Throw Lanes** contains:
  - Arc for 19′ 9″ radius circle (66 pieces plus 1 extra)
  - Arc for 6′ radius circle (8 pieces)
  - 8″ x 12″ blocks for Free Throw Lanes (4 pieces)

*This Basketball Court Diagram is in accordance with the official specifications of the National Federation of State High School Associations, Kansas City, MO., as revised in January 1996. They can be contacted at 816-464-5400. If you wish to have additional parts to make other size courts or ones that conform to different specifications, please contact your Azrock Distributor to order these items as a **Custom Inset Request** at an additional charge.*



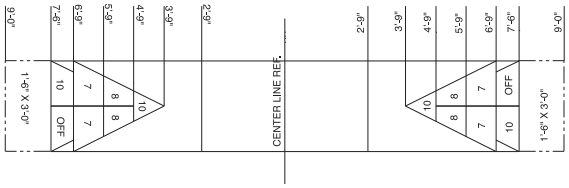
Technical Specifications for Sport Kits

Gauge	1/8″
Adhesive	D100 Clear Thin Spread

Shuffleboard Court Kit –KT309

Each kit contains sufficient material for an abbreviated shuffleboard court including installation information and tile pieces. This kit is not "regulation" size. (Field product to be ordered separately.)

This kit contains 3 colors—red/white/blue numbered triangular shape pieces. Field tile and black feature strip (border tile) are sold separately. Contact your Azrock Distributor. Other solid tile colors are available as a special order.



The illustration details the layout for a Standard Shuffleboard Court Kit. The kit contains solely the pre-cut and lettered pieces. Feature Strips 1/2″ or 1″ wide can be purchased for boundary lines. 50 linear feet required.

SPRAYSMART

- READY FOR USE IMMEDIATELY AFTER INSTALLATION
- REDUCES INSTALLATION TIME BY UP TO 70 PERCENT
- LESS STRAIN ON INSTALLERS
- REQUIRES MINIMAL ACCESSORIES
- SAVES TIME AND MONEY
- ENVIRONMENTALLY FRIENDLY
- VOC-FREE

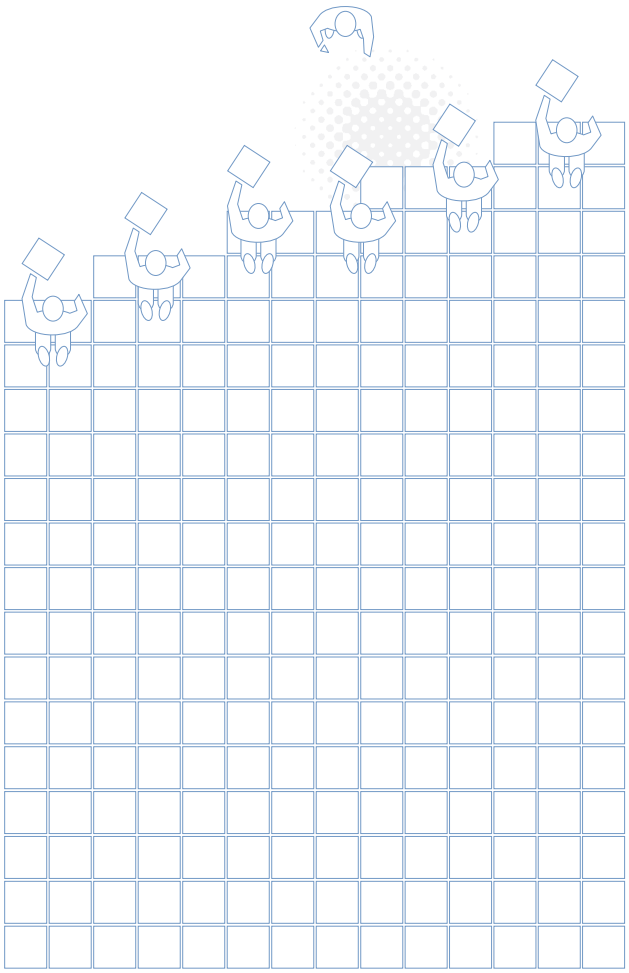
A Smart Tile deserves a smart adhesive. SpraySmart adhesive is that intelligent adhesive option.

A small team of workers is able to work swiftly in unison to lay the tile on the adhesive spray. The process is efficient, saving up to 70 percent on installation time. Once the installation is complete, the floor is ready for immediate occupancy. You spend less money on installers and have less downtime waiting for your floor to be ready.

A flooring system that saves you time and money makes you look smart.

70 PERCENT

FASTER INSTALLATION



ADDITIONAL ADHESIVES

All of our adhesives have been specially formulated and tested to provide superior results when used as recommended. Use of complete Tarkett branded installation systems, flooring material, floor preparation products and adhesives ensures Tarkett full warranty coverage on our commercial flooring products.

6 per case

Environmental Attributes & SpraySmart Potential for 10,000 ft²

	Typical Generic	Tarkett 100	Tarkett SpraySmart Potential
Quantity Per Average Store	12 buckets	9 buckets	56 cans / 9 cartons
Lbs of adhesive	480	360	74
Lb's of CO^2 from freight	33	26	5
Gallons of manufacturing water	21.7	17.3	3.6

Bucket weight: 40 lbs each / SpraySmart Carton: 8 lbs 4 oz.

Reduction in Environmental Impact:

- **Pounds of glue!**
- **Truckloads off the highways!**
- **CO^2 of freight greenhouse gas not generated!**
- **Gallons of manufacturing water saved!**
- **79.4% decrease in adhesive manufactured, transported and installed!**

Additional Adhesives

100 CLEAR THIN SPREAD ADHESIVE
for Vinyl Composition Tile - Zero TVOC

800 PRESSURE SENSITIVE ADHESIVE
for Commercial LVT, .100 gauge, and Solid Vinyl Tile - Zero TVOC

940 POLYURETHANE ADHESIVE
for specialized applications - Zero TVOC

MISSION STATEMENT

It is Azrock's goal to manufacture environmentally preferable products which have a lesser or reduced effect on human health and the environment compared to competing products and services.

Being environmentally conscious and striving to attain sustainability for the construction industry includes such things as:

- Reduce fuel usage
- Reduce waste/landfill usage
- Reduce construction time
- Reduce dependency on foreign oil
- Reduce traffic congestion
- Improve air quality
- Improve customer satisfaction

How does Azrock address these concerns ?

ENERGY

The plant reduced usage of energy by 20% going from 0.038MMTU/carton to 0.031MMBTU/carton

Initiatives such as:

- 10% of the electricity used is "green". Replacement of lighting used in warehouse and approximately 40% of production areas to T5 fluorescents versus sodium light bulbs.
- installed "soft starts" on 35% of equipment to lower demand electricity load during start-ups have been put in place in all areas of the production process.

RAW MATERIALS

Packaging: 30-35% of all packaging is recycled content.
Products: 2-3% recycled content is included in our tiles. In the next year we intend to double that amount.

REDUCTION OF CONSTRUCTION TIME

Using the Azrock system including product and Spray Smart adhesive will reduce your installation time by up to 70%, create a safe environment for the workers during construction with FloorScore certified products and adhesives and allow immediate occupancy of the building.

Azrock is always investigating new ways of reducing installation time with different technologies. We believe installation should be easier, simpler and less stress on the installation crew creating a positive impact on all facets of the business.

PERFORMANCE AND DURABILITY

Products are made in an ISO 9000 manufacturing facility guaranteeing the quality of the products and processes. All Asset (vinyl composition tile) products carry a 5 year warranty on manufacturing defects and moisture if installed with our Spray Smart adhesive; a unique combination in the industry.

Our Advance (vinyl enhanced tile) and Achieve (solid vinyl tile) carry a 10 year warranty inclusive of manufacturing defect and moisture if installed with Spray Smart adhesive. If maintained properly our products will remain beautiful for their useful life.

For some of our products, Advance and Achieve, Azrock has developed formulas allowing for a reduced impact on water and IAQ (Indoor Air Quality) with reduced maintenance options: from 2 coats of polish to a dry buffable surface.

INDOOR AIR QUALITY

All products and our Spray Smart adhesive are FloorScore certified.

RECYCLING

Products are 100% recyclable. Our ReUse program takes back all samples from the field but most importantly installation waste from job sites.

Azrock will divert back clean waste to our manufacturing facility for recycling within the products.

Azrock has a pilot program in the state of Texas for the recycling of the installed floors.
